TRINITY NO. 12.

BIRTH.
On the 26th September, the wife of FREDERICK
DOWDAN, of a son.

The Daily Press.

HONGKONG, SEPTEMBER 27TH, 1889.

The most important subject dealt with at
Wednesday's meeting of the Sanitary Board
was that of the Pukfuklum water supply and
the measures to be taken to prevent its
pollution by the washing of earth into the
reservoir. The decision arrived at cannot be
considered quite safe either. The matter
is not to be altogether ignored, but is to be
dealt with in a half-hearted manner that
leaves, to say the least, a possibility of a re-
petition of the experience of last spring,
when the population was supplied with
diluted mud instead of water. Earth may
be, as Mr. HUMPHREYS says, to a certain ex-
tent a purifier, but, if so, most people would
prefer their water without the purifier. The
Surveyor-General is evidently alive to the
importance of the subject, and in this we
have some measure of security that an effort
will be made to prevent any further pollu-
tion of the Pukfuklum reservoir on a large scale,
but the Sanitary Board, as a body, did not
seem to appreciate the necessity of action so
fully as might have been expected. We
quite agree with Mr. HUMPHREYS that the
Board ought not to harass people more than
is absolutely necessary, but we cannot en-
dorse his implied assertion that the deposit-
ing of loose earth in the Pukfuklum catch-
ment area is a right which has been enjoyed
from time immemorial. It is quite a recent
innovation and ought to put a stop to it
forthwith. Mr. HUMPHREYS suggested two
other causes for the delamination of the Puk-
fuklum reservoir besides the cutting of earth
by private persons. One of these was that
the torrent of rain we had early in the
season cut up the Crown lands in
all directions. Some small measure of
the pollution may have been due to
this source, but we think we are correct
in saying the landslip in the Pukfuklum Valley
were comparatively trifling. In any case,
the existence of any unavoidable cause
of pollution is no justification for inaction
with regard to avoidable causes. If
loose earth cannot altogether be excluded
from the reservoir, by all means let the
quantity be reduced as much as possible.
The other cause mentioned by Mr. HUM-
PHREYS is the tree planting. But so far as
we are aware, no planting has been carried
on this year in that locality and the effects of
the disturbance of the earth by the digging
of the tree pits had expended themselves
long ago. It may or may not be desirable
that trees should exist in the valley, but
they certainly do not contribute to the
washing of loose earth into the reservoir.
The real cause of the pollution of the water
supply in the early part of the present year
was the washing down of the heaps of earth
which had been excavated in connection
with building operations and deposited in
such situations that when the heavy rains
came they were swept down into the reser-
voir. It is an imperative duty of the Go-
vernment and the Sanitary Board to see that
pollution does not arise from the same cause
next year. Whatever interests may be in-
volved, they must give way wholly and ent-
irely to the paramount necessity of pre-
serving the purity of the water supply. If
the existing law is not strong enough
to meet the case, then the very first
thing the Legislative Council ought to
do on assembling is to pass mea-
sures giving the authorities with what-
ever additional powers may be require-
d. If any equitable claims for compen-
sation can be established they must of course
be satisfied, but at whatever cost the purity
of the water supply must be maintained.
People may talk till doomsday of the in-
conveniences of the earth, but they will never
succeed in convincing consumers that mud
as good as water for drinking and potable
purposes. What the Sanitary Board pro-
poses to do is to inform persons tipping
earth that they will be expected to take
steps to prevent the earth being washed into
the reservoir. This is not sufficient. The
steps which private parties may deem ad-
equate may be very far from being so in
reality. We have the assurance of the Sur-
veyor-General speaking as a responsible
officer, that everything possible will be done
as regards Crown lands, which is so far
satisfactory, but leave the matter as re-
gards private ground to the discretion of the
persons interested in the property is
full. It is the duty of the Sanitary Board
to see that the mischief is prevented, not to
wait until it has been done and then pro-
ceed against the parties who have caused it.

The total exports of tea from Caylon up to the
7th instant amount to 31,360,000 lbs.

The delivery of the French and American
mails was begun at 8.35 am yesterday.

A special telegram to the Japan Gazette states
that the British fleet was to leave Hakodate on
the 17th September for Yokohama.

Owing to the arrival of two mails and press
matter on our news columns we are compelled
to hold over several interesting articles.

The man charged with the theft of opium
from the steamer Japan, and with shooting fire
into the vessel were yesterday committed for trial
by Mr. Robinson.

The Agents (Messrs. Battiford & Swire)
inform us that the S. S. Co.'s steamer
Sarpedon from Liverpool, left Singapore on the
24th inst., for that port.

We learn that at the annual general meeting
of the Hongkong St. Andrew's Society, which
had yesterday afternoon, it was unanimously
decided to celebrate St. Andrew's Day by giving
a Ball.

A telegram in the San Francisco Chronicle
stated that the recent general meeting of the
Deaconess Fund Association, held at the
Society for the use of the American Presbyterians
Ministers of one of the royal palaces, together
with its extensive grounds and buildings.

Chinese secret societies have taken root in Java.
The *Java Post* of the 13th instant admits as
much. Several of these organizations started
at Semarang, and are now especially hostile
to each other, as much harm as possible.
The local Chinese headmen glaze over
the matter, but rumour has it that these societies
are branches of those at Singapore and Ildio.

More cases of hydrocephalus in Singapore.
The *Straits Times* says: "A King, a Prince, and a
boy, all bitten by a scorpion in the Semarang
district about a month ago, have died from the
effects of the bite. Another man who
was bitten by the same dog, and at the same
time as the biter, is now under treatment. The
dog was bitten some time after the occurrence."

Yesterday at the Police Court, before the
Hon. H. E. Wodehouse, Choi Atuan appeared
on remand charged with stabbing a woman
who subsequently died from the wound. He
was said to have been at work at the time of the
attack, and it was not true that he stabbed the
woman.

The bandit was committed for trial
at the next Criminal Sessions.

The band of the A. S. Highlanders will
play the following programme on the Barrack
Square this Friday evening, commencing at
7.30 p.m.

"Hymn for the Bells of Gliss." Miller,
Lamers, "The Old Guard." Crook,
"Mossy Oak." Lowther, "Flick and Flack."

The case of the Chinese fireman charged
with stealing at the fire in Queen's Road on Saturday
night was again called before Mr. Robinson, at
the Police Court yesterday, when his Honor
said he had seen if the man had any cause to
make for his conduct, and that he had done
what he did out of a sense of justice. The
defendant's bail, \$40, was remitted and a warrant
was issued to be served on him.

On the 16th September, Joseph Hartard,
fire officer of the *Sikatuna*, who had been
arrested on a charge of shooting and wounding
the quartermaster of the *Sikatuna*-marines with
intention to kill, was again brought before Mr. J. J.
Eneida, Acting Assistant Judge, in H.E.M.
Court for Japan. The wounded man having
since died the charge was reduced to one of
murder. Evidence was given that he had
made, repeated that what he did did in self-
defence. He was then committed for trial.

In communicating on the subject of the Chinese
and the *Sikatuna*, Consul Stevens, of Victoria,
in a report to the Department of State at
Washington, says: "The number of this race,
formerly so great in the province - at one time
estimated at 18,000 or 20,000 - has largely de-
creased, the present Chinese population, as given
from official quarters, being 8,000. Nearly
half of them, however, have practically ceased
to be Chinese, having been absorbed. During
1888 and the two last months of 1887-8, 371
arrived in Vancouver on Oriental steamers.

Measures, Scott & Co., Grocers, have secured
an order for two new steamers for the China
Navigation Company. Each vessel will be
2,000 tons. The same firm will also
construct two vessels of about the same size for
Messrs. Holt, of Liverpool.

spoke to the cardinals last Saturday night
on the great encyclical on Catholic charity,
in Japan. Cardinal Simon, Prefect of the
Congregation of the Propaganda, is preparing
for exceptional strength with the English
Church, which is thriving, with good prospects
of success, to convert almost the whole country.

H. M. S. Australia, a vessel which can steam
21 knots an hour, and which has been
designed to carry 1,000 men, has been
going to join the flag in China. She
arrived at Shanghai, such as her
name indicates, and has been
employed on the coast of China, where
she has made a name for herself, and
is estimated to be worth \$100,000.

brought to the verge of completion. He has come through the Paris project for piling together into one unit all the scattered, disjointed and broken up Welsh districts, has bidden the Duke of Chester and brought North Wales for the first time in direct communication with the Lancashire district.

The whole scheme has been conceived, re-figured and completed in less than ten days. Mr. H. B. Pochin is one of the contractors of the scheme. Mr. Pochin is one of the coal-proprietors in England. Another name is Mr. Thomas Andrew Walker, the greatest contractor in the world, and at the present moment carrying on some of the greatest enterprises of the age. The Manchester ship canal is one, and the Liverpool & Ayrshire Harbour for the Argentine Government is another. His son, Mr. E. H. Garbett, who was a member of Parliament for Newport. He is a well-known mechanical engineer, and has been president of the Mechanical Engineers' Exhibition. The last is Mr. Francis Pavy, well known in financial circles.

"We contemplate first of all putting up a tower with all the public conveniences you can in connection with the Eiffel tower, and improvements which have been suggested in its construction. The tower will be made by English or Scotch contractors, and of English or Scotch steel. No firm has yet been selected, though the sum is limited, but we will not go far from the Metropolitan Railway, which carries upward of 3,000,000 persons per annum. No doubt the best site, the promoters could obtain, and the one they will naturally first look at would be the place where the great Colonial and other exhibitions have been held in South Kensington."

"Passengers would be taken up by one elevator from the bottom to the top with no difficulty in the Eiffel tower, though passengers could alight at different stages. We have no designs or plans yet, nor have we decided upon anything with regard to the style of architecture."

"A third scheme would require an area of six acres for the base. The capital is £200,000 in 51 shares. That will be sufficient to build a tower of the size we have in view, and, of course, we shall build for cash. We already have inquiries for shares which would swallow up every one we have to allot. One never knows what view Parliament or the public authorities may take, but one cannot conceive it possible that the British Government would receive any opposition from the other municipal authorities or from Parliament. No such scheme has been attempted in England and before."

MRS MAYBICK REMOVED TO WORCESTER.

LIVERPOOL, 27th August.

Liverpool has seen the last of Mrs. Maybick,

for she was this morning taken from Walton Jail and conveyed to the Knaphill Female Convent.

Miss Cleaver, her solicitor, had his final interview in the jail on Wednesday evening

with the Queen's Bench magistrate, and the

guardship of the children.

The King's subjects scarcely share

his enthusiasm for Africa, and are not likely to vote in favour of the absorption of this State by ours. So it is quite likely the Committee will be paid about Europe and may be hard for the asking.

JUZERINE, 30th August.

Washburne, American Minister of Berna, has

had a formal protest before the Swiss Federal

Council against the arrest of four American

soldiers on the platform at the Bern railway

station. The wounded were sent to hospital

and were then liberated with an explanation or apology.

They were making a tour of the country

and, as far as I can see, put in a very

pleasant holiday.

It is the first time that the King's subjects

have been so ill-treated.

Her general appearance would not have led one to suppose that she was likely to die under prison treatment.

Mrs. Maybick was dressed in the usual

prison uniform of brown stuff, marked with an arrow, with a gray cap hood and bonnet and ordinary prison shoes. She has become very

thin and gaunt.

THE Czar AND THE FORT.

CEASARALEVSKY, 26th August.

Cesar Alexander just performed the most

peasant act of his reign, by shooting his par-

son to the bone and another.

Tscherniakowski, whose name is watchword among the population, but the people cannot be

afraid of any length of time by State charity, and ac-

cordingly the Government had to consider

how large a part of the Montenegrin popula-

tion had to be fed.

It is the only measure of self-government

which the Czar will favour.

The Servian Government will favour the immigra-

tion of a large number of Montenegrins in the

excited and divided state of the country. The

question has not yet been officially mooted at Belgrade.

THE CZAR AND HER SERVANTS.

LADY MACARTNEY AND HER

SERVANTS.

Lady Macartney, of 3, Harley-street, Maryle-

bone, was summoned on the 20th August, at the

Marblebone Police-court, for assaulting

Jesus Davis, a domestic servant at one time in

her employ. There was a second summons

against Lady Macartney, charging her with

hitting her son, and the first was dismissed.

It is the second charge which is now before

the magistrate.

The trial, which was adjourned, was

postponed until the 27th instant.

THE Czar and his entourage, was not reached,

however, until the next day. "Hail to the Queen,"

which means "Long live our Queen,"

such a right has never been witnessed before in

Wales. During the singing of the former song

many people were in tears, such was the pathos

of the scene. After the first round, and the waving

of hats and handkerchiefs, followed a scene

almost indescribable. The adjournment of the

day's proceedings terminating with a mineral

concert.

DAMALA'S FUNERAL.

PARIS, 27th August.

In its report of the funeral of

Miss Damala's husband stated that when

the body was found in the floor of the

house the coffin was open, and it took

an hour to make it large enough. In the

operation the body was placed in an arm-chair

and Sara Bernhardt had the courage to

place Damala's head on her shoulder during the

whole time.

Mr. Gandy says the coffin was the proper size,

but on account of the dimity in lowering it

from the first to the second floor, it was

postponed to the 28th instant.

In the meantime the body was placed in an arm-chair

and Sara Bernhardt had the courage to

place Damala's head on her shoulder during the

whole time.

MISS DAMALA'S FUNERAL.

BOSTON, 23rd August.

Count Von Moltke's brother, Louis, is dead

aged 86 years.

LONDON, 27th August.

Among the prominent people now af-

forded to America is Sir Edwin Arnold, author

of "The Light of Asia," who with his daughter,

Adelaide, is now at Montreal. He in-

tends to travel home by way of California.

The body was not immediately placed in the

coffin because to the Greek rite, the latter had to be blessed by the priest beforehand.

This morning only the body having been

placed in the coffin, the uncovered,

tumpling religious chanties were intoned, which caused Miss Bernhardt to shed tears at the

service.
